## Copper Bus bar Quotation Sheet

- (1) The copper busbar is customized according to the customer's battery arrangement.
- (2) This price is based on the conventional production process.
- (3) If the customer purchases the bracket from other suppliers, the size of the bracket needs to be provided, we will customize copper busbar according to the bracket.
- (4) The copper thickness exceeds 1mm. In order to ensure the welding firmness, Laser spot welding process is added, The cost of the mold is necessary.
